

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

- 1.(Original) A method of continuously seaming wide panels of cured EPDM membrane to form a composite roofing membrane of predetermined width and indefinite length comprising:
 - providing at least two rolls of wide panels of cured EPDM membrane having longitudinal marginal edges;
 - feeding the wide panels of cured EPDM membrane from the at least two rolls in a first direction;
 - simultaneously positioning longitudinal marginal edges of the cured wide panels of EPDM membrane in an overlapping relationship as the cured wide panels of EPDM membrane are fed in the first direction; and
 - seaming the overlapping cured edges of the EPDM membranes to form a composite roofing membrane.
2. (Original) The method of Claim 1 wherein the overlapping marginal edges of the wide panels of cured EPDM membrane include a preapplied adhesive there between.
3. (Original) The method of Claim 1 further comprising the step of applying an adhesive between the overlapping marginal edges of the wide panels of cured EPDM membrane.
4. (Original) The method of Claim 3 wherein the adhesive is selected from TPO or TPE.
5. (Original) The method of Claim 2 wherein the adhesive is selected from TPO or TPE.
6. (Original) The method of Claim 2 wherein the overlapping cured EPDM membranes are seamed by heating the area of overlap to weld the overlapping cured EPDM membranes and then compressing the area of overlap to form a seam.

7. (Original) The method of Claim 1 wherein the overlapping cured EPDM membranes are seamed by applying an adhesive between the overlapping cured EPDM membranes and then compressing the area of overlap to form a seam.

8. (Original) The method of Claim 1 further comprising the step of cutting the composite roofing membrane to a desired length.
